

WARIS KHAMKAWEEPART

FULL-STACK SOFTWARE ENGINEER & WEB ARCHITECT

Email: contact@waris.dev | Location: Bangkok, Thailand | Portfolio: waris.dev
GitHub: github.com/savewaris | LinkedIn: linkedin.com/in/waris-khamkaweepart

PROFESSIONAL SUMMARY

High-performance full-stack engineer specializing in Next.js 16, TypeScript, and Hexagonal Architecture. Proven expertise building decoupled domain logic, responsive bento interfaces, and reliable data layers.

CORE TECHNICAL SKILLS

Frontend: Next.js 16 (App Router), React 19, TypeScript, CSS Modules, Framer Motion.
Backend: Node.js, Prisma ORM, PostgreSQL (Neon), REST API Design, Server Actions.
Architecture: Hexagonal (Ports & Adapters), WCAG 2.2 AA Accessibility, CI/CD GitHub Actions.

KEY ARCHITECTURE & HIGHLIGHTS

- Architected full-stack personal engineering portfolio with 55-point automated health gate.
- Implemented decoupled Domain-First infrastructure isolating Prisma repositories from UI presentation.
- Built zero-overflow responsive Bento Grid layout with hardware-accelerated Framer Motion physics.
- Authored end-to-end automated UX/UI verification suite utilizing Playwright and Axe-Core.

EDUCATION

Chulalongkorn University - Engineering & Technology
Focus on Scalable Software Systems, Distributed Architectures & AI Systems
